Skills

- HTML5
- CSS3
- Javascript
- JQuery
- Bulma
- Bootstrap

Deployed Projects

Brews and Loos: https://kellyjohnson364.github.io/brews-and-loos

   This search application uses Brewery DB and Refuge Restroom Rest APIs to find Breweries with gender neutral restrooms for transgender communities. Styled with Bulma CSS and utilizing JQuery, the team hopes to expand this project to other industries.

Weather Dashboard: https://kellyjohnson364.github.io/weather-dashboard

   This dashboard uses Open Weather API and Moment to display current weather conditions and future 5-day forecast in a user's local area. This was styled with Bootstrap and was dynamically created using JQuery.

Password Generator: https://kellyjohnson364.github.io/password-generator

   Provided with character and length requirements, this app creates a random password using Javascript.
